

beginner

Everyone is a founder

Tyler Lindow · Founder of beginner

Pre-seed · \$215,000

Team

- Solo founder.
- 3.5 years seeing how coaching can be a lever for raising funds.
- 6.5 years seeing how this works at scale through software.
- Never the gatekeeper. Always the bridge.

Problem

Strong builders sometimes never become founders.

The only way to learn fundraising today is a \$500–\$5,000 a month coach. So the people who become founders are the people who can afford one. Talent doesn't decide. Wealth does.

Solution

A guided interview that helps developers figure out their founder pitch. One-hundredth a coach.

Traction

10

developers have used tinker. Live product. Zero revenue today — pricing turns on with the seed.

Market

\$2.16 billion a year

**20 million developers × \$9 a
month.**

The market is every developer worldwide who could ship a founder pitch. At \$9 a month, this is the ceiling — what we capture is what we earn.

Ask

*\$215,000 → 12 months runway.
San Diego base, San Francisco
circuit.*

\$168,000 — founder salary, 12 months
(\$150,000 base + \$18,000 benefits).

\$20,000 — Anthropic API (the per-user cost
behind the \$9 estimate).

\$10,000 — travel and lodging, San Francisco (2
trips, 2 weeks each).

\$4,000 — Industrious San Diego office (\$332 a
month).

\$3,000 — Vercel + PlanetScale + Stytch +
GitHub.

\$10,000 — buffer.

Line in the sand: personal runway ends June 2026. If
the round doesn't close, I step away.

Thank you
