Everyone is a founder

Tyler Lindow · Founder of beginner

Pre-seed · \$500,000

Team

- Solo founder.
- 3.5 years seeing how coaching can be a lever for raising funds.
- 6.5 years seeing how this works at scale through software.
- Never the gatekeeper. Always the bridge.

Problem

Strong builders sometimes never become founders.

The only way to learn fundraising today is a \$500–\$5,000 a month coach. So the people who become founders are the people who can afford one. Talent doesn't decide. Wealth does.

Everyone is a founder.

You just need a seed to start.

Where are you right now?

A guided interview that helps developers figure out their founder pitch. One-hundredth a coach.

Traction

- **May 18, 2026**
App launched. tinker is live.
- **Today, May 28, 2026**
First paid user — the founder.
- **Month 6**
Target: 1,000 paid developers.
- **Month 12**
Target: 2,000 paid developers (~\$216,000 yearly revenue).

Market

\$2.16 billion a year

**20 million developers × \$9 a
month.**

The market is every developer worldwide who could ship a founder pitch. At \$9 a month, this is the ceiling — what we capture is what we earn.

Ask

\$500,000 → 12 months. Closing now — savings run out at the end of May.

\$168,000 — founder salary, 12 months (\$150,000 base + \$18,000 benefits).

\$232,000 — marketing and growth (paid acquisition, dev events, content, community).

\$35,000 — legal, accounting, banking, incorporation.

\$25,000 — Anthropic API (the per-user cost behind the \$9 estimate).

\$20,000 — San Francisco (3 months living + weekly flights home).

\$10,000 — office and dev stack (Industrious \$332/mo + Claude Code \$200/mo + Vercel + PlanetScale + Stytych + GitHub).

\$10,000 — buffer.

Line in the sand: savings run out end of May 2026. If the round doesn't close, I step away.

Thank you
