EMPIRICAL BASIS

10 people · 11 days · \$9.03 in AI costs. 1 of them paid \$9/month inside a week; that same person moved up to \$45/month inside two weeks. The 18-month plan grows this same pattern 1,400 times — from ~1 new person a day today to ~45 a day by month 18. Limited by how many people I can reach alone, and the \$181K AI budget across those 18 months.
